

KNOLL AND CHIAVARI: NOW PARTNERS FOR HIGH QUALITY IN CONTRACT FURNITURE

Knoll International and Chiavari are proud to announce the beginning of a strategic partnership for the delivery of high profile contracts projects.

Cooperation between the two companies dates back to the 1970s when the celebrated multinational company creating some of the most iconic design of the 20th century engaged Chiavari for the production of its handcrafted bespoke interiors. Meeting the highest possible quality standards for which Knoll International is renowned, Chiavari started supporting Knoll in its projects for unique bespoke commissions all over the world.

Today's collaboration takes place alongside a renewed modern vision of design but based on the same values the two companies have always shared: to state a firm proposition to offer complete and efficient quality solutions to their clients.

The objective pursued by Chiavari and Knoll International together is to add new value to design projects by giving a distinctive touch to interior spaces through perfectly crafted pieces that are inimitable and capable of gaining value with time.
